ABOUT FINTECH THRUST

Overview

Financial Technology (FinTech) is an important emerging area that has been developing rapidly in recent years. It refers to the application of cutting-edge technologies and advanced analytics on various financial services and financial challenges, such as digital payments, robo advising, algorithmic trading, blockchain technologies, big data analytics, and central bank digital currencies, aiming to improve service efficiency, promote financial innovations, and increase end-user satisfaction.

Mission of the FinTech Thrust

Financial Technology Thrust nurtures creative minds to explore frontiers in Financial Technology by employing advanced technologies to improve financial services, promote financial innovations, and establish more efficient financial systems.

Head's Message

Prof. Ning CAI

Thrust Head

Financial Technology
Thrust,
HKUST(GZ)

FinTech, short for financial technology, is a burgeoning interdisciplinary field where novel technologies and financial innovations are employed to improve traditional financial services. Its rapid development has changed and will continue to change the global financial system as well as our lives profoundly, and the whole world has been witnessing growing needs for people with FinTech-related expertise. Located in Nansha, the geometric center of the Greater Bay Area, HKUST(GZ) has a unique advantage to develop the FinTech field because both finance and technology are strategically important in the Greater Bay Area. By drawing on the interdisciplinary expertise of our strong faculty, the FinTech Thrust of HKUST(GZ) aims to conduct original and influential research in various areas of FinTech and nurture outstanding researchers, practitioners, and policy makers in the FinTech field, thereby contributing to the economic development of the Greater Bay Area and playing an important role in shaping the future of the FinTech field.

PHD IN FINTECH

Doctor of Philosophy (PhD) Program in Financial Technology provides training and education for students to undertake advanced research and have a sound grasp of developments in FinTech. Students graduating from these programs should be able to conduct and apply high-quality research that makes an impact on FinTech research and practice in academia and/or industry. The programs focus on advanced research with an aim to place graduates in academia, research institutes, and industry jobs that appreciate research capability and quality.

Cross-Disciplinary Focus Areas

- 📦 Blockchain technology, smart contracts, and digital currencies
- 📦 Robo advising, quantitative investing, and risk management
- 📦 Machine learning, artificial intelligence, and big data analytics in finance
- 📦 Technological innovations for financial services
- 📦 Regulatory issues and challenges in FinTech
- 📦 Digital economy and financial inclusion

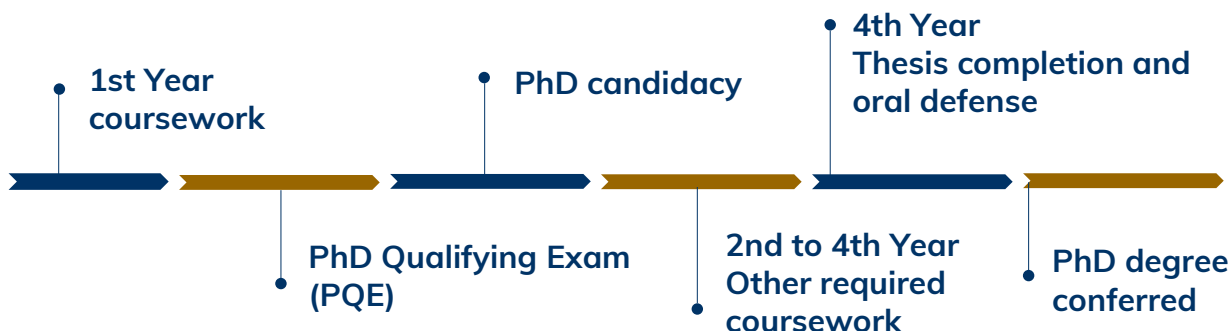

Learning Outcomes

On successful completion of the PhD program, graduates will be able to:

PHD IN FINTECH

Normative PhD duration: 4 years

GENERAL INFORMATION

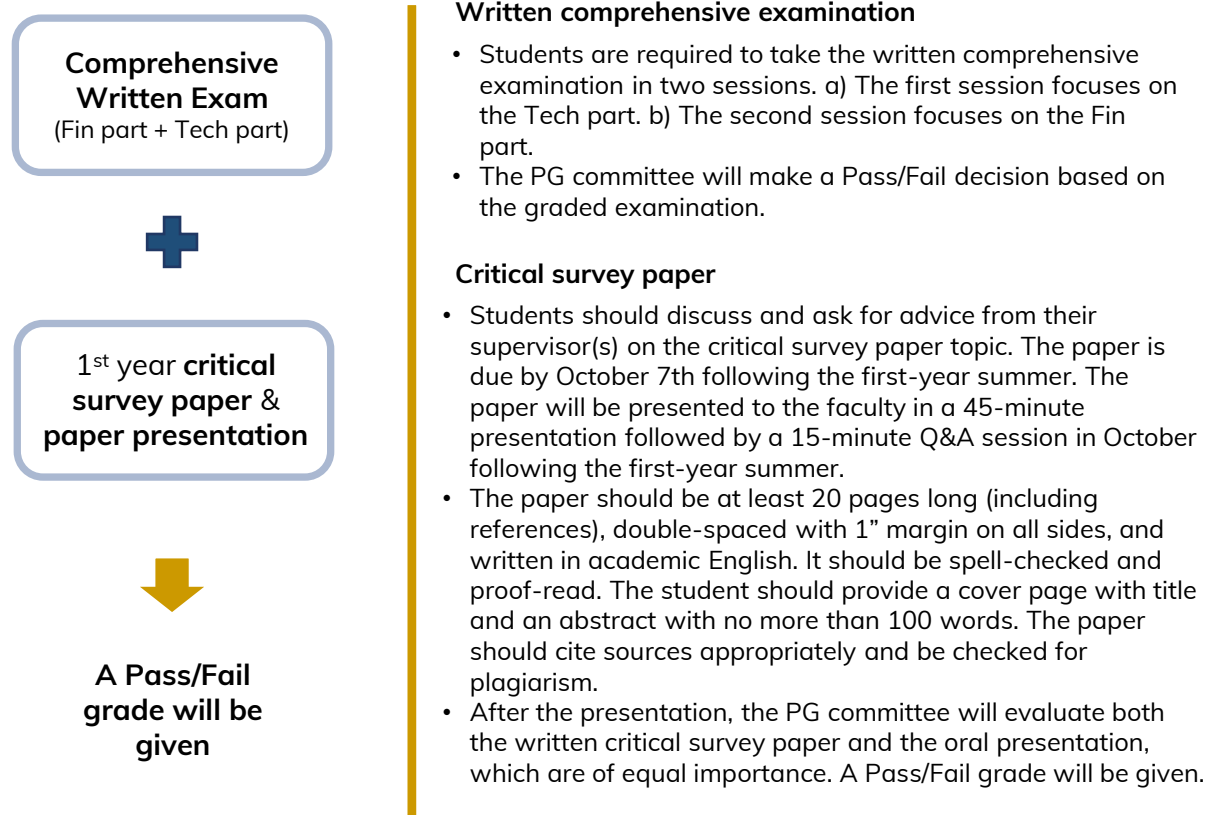

Admission to HKUST(GZ)

Award Title	Doctor of Philosophy in Financial Technology
Program Short Name	PhD(FinTech)
Mode of Study	Full-time
Normative Program Duration	PhD Full-time: 3 years (with a relevant research master's degree), 4 years (without a relevant research master's degree)
Offering Unit	Financial Technology Thrust Area Society Hub
Program Advisor	Program Director: Prof Ning CAI, Professor of Financial Technology

HIGHLIGHTS OF FINTECH PQE GUIDELINE

PhD Qualifying Examination (PQE)

The objective is to assess whether students are qualified to proceed to pursue PhD degrees.

(1) The Tech part mainly focuses on the materials covered in the following three courses:

- FTEC 5030 Statistical Methods for Financial Technology
- FTEC 5031 Advanced Probability Theory
- FTEC 5032 Optimization Theory

(2) The Fin part mainly focuses on the materials covered in the following three courses:

- FTEC 5100 Research in Corporate Finance
- FTEC 5101 Microeconomic theory
- FTEC 5110 Research in Asset Pricing

Both Tech part and Fin part will be given a grade of P/MP/F.

'P'=Pass,
'MP'=Marginal Pass,
'F'=Fail

To pass, the student should obtain one P plus one MP or above in sub-category grades

PHD PROGRAM IN FINANCIAL TECHNOLOGY THRUST CURRICULUM DESIGN

- Core Courses + Required Course + Electives = 21 credits for PhD in minimum
- To meet individual needs, students will be taking courses in different areas, which may include but not limited to courses and areas listed below.

Course Type	Course Code	Course Title	Credits
Core Courses (6 credits)	IIMP 6030 OR IIMP 6010	IIMP 6030 Cross-disciplinary Design Thinking I OR Cross-disciplinary Research Methods I	2
